

SchaeferGroup

Schaefer Group is an international stevedoring and shipping organization providing fully integrated logistics services within the maritime and port related industries of North, Central and South America. From our offices in the United States, Mexico, Panama and Colombia, we offer complete steel and general cargo shipping services for much of the Pacific Coast and Gulf of Mexico. As an American company focused on Latin America, we offer stevedoring, warehousing, trucking, vessel agency, logistics, freight forwarding and ocean freight services in the region. Latin America has become for us, very familiar territory. Our facilities and services there are an integral part of our company's general operations and growth; making our presence in the region among our greatest strengths.

Stevedoring

Over the course of several decades, the Schaefer name has been stevedoring along the Gulf for imports into the industrial regions of Mexico. We began with a single, general cargo terminal operation in the Port of Brownsville, handling mostly steel destined for Monterrey. Since then, our stevedoring origin has allowed us to expand our reach into trucking, rail, and ocean freight. Today, Schaefer services now encompass every major transportation mode in Mexico.

Our stevedoring operations are located along the Gulf of Mexico in Brownsville, Altamira, Tampico, and Veracruz. And in addition to those locations, we do bundle services in other ports in Mexico, mostly along the Pacific Coast in both Manzanillo and Mazatlan.

Inland Freight

In 1993, we established Schaefer & Cía in Veracruz to more directly control our growing operations in Mexico. Since that time, we have had extensive experience in overland shipping affairs, and have created a comprehensive network of partnerships, enabling us to offer warehousing, trucking, and rail services, once the cargo arrives at port. Schaefer & Cía began in Veracruz, but our operational scope now includes Tampico, Altamira, and Manzanillo, and Mazatlan, with a delivery capacity of reaching the entire country. We are on the ground, and immediately respond to the ever-changing environment and requirements that are part of working in Mexico.

Logistics

Our logistics service brings together all of the other individual services that we offer into one larger operation. Stevedoring, warehousing, trucking, and rail, can be bundled into one larger offering with the ability to ship cargo from the port of origin to the final point of destination. As is the case in many other countries, business in Mexico is an ever-changing environment. Our decades of experience and extensive network are indispensable to the management of these often complex tasks. We've developed a deep understanding of how to properly ship cargo within Mexico, and that understanding is one of our pillar strengths. It is at the core of who we are.

Services	Stevedoring Warehousing Trucking Rail
-----------------	--

Essentials	We bring all elements of the supply chain together under one service, creating a single answer for your logistics needs. Packaging stevedoring, warehousing, trucking, and rail, into one larger shipping option.
-------------------	---

Coordination	Our logistics services handle all coordination between terminals, warehouses, trucks, and rail cars, operating as the single point of contact for our clients.
---------------------	--

Audaxia Logística is a shipping and logistics company based out of Monterrey, Mexico which focuses on bulk, breakbulk, container, and project cargo via both ocean and air freight shipments. In combination of group assets and our long standing service provider network, our company offers stevedoring, trucking, warehousing, ocean and air freight services. We are comprised of a team of seasoned, multi-national executives dedicated to having a positive influence on the traditional shipping industry in Mexico. The experience of working with our company is one of vitality and originality. One which offers a philosophy based on intelligent business practices coupled with an elevated customer service standard. A standard which contributes to the modernization and enhancement of the entire shipping experience we provide.

Stevedoring & Warehousing

Stevedoring and warehousing for Mexico’s growing industrial market sectors have always been part of our core services. Our primary commodity is steel, but we ship all manner of bulk, break-bulk, and project cargo for the energy, agricultural, aerospace, mining, and construction industries from both the Gulf and Pacific coasts of the country.

Trucking & Rail

In 2023, we started Audaxia Transportes in San Luis Potosi after many years of direct ownership and participation in other trucking ventures. Audaxia Transportes has its own late model equipment which services most of the industrial sectors of the country. Our trucking service is an extension of our stevedoring and warehousing operations as we are heavily involved not only in the trucking sector but in most areas of the Mexican shipping industry. Our team has many years of experience operating in the Latin American country. An experience which allows us to effectively handle every part of the supply chain once the cargo arrives at the docks.

SCHAEFER BMA GROUP

BMA History

In January 2023, Schaefer Group USA fully acquired Bulk Maritime Agencies, S.A.S. (BMA Colombia) from Clipper Group Denmark and added vessel agency to our portfolio of shipping services. Started in 1999, BMA Colombia had a noteworthy and multi-decade long track record of excellence which we felt would add value to our group. And after purchasing 100% of the existing shares, Schaefer Group then further extended its reach into Latin America by directly having a presence in Colombia. And in 2025, furthering the spirit of expansion, Schaefer BMA moved its headquarters to Panama and invested in two new operations in South Texas and Mexico. As a result, our group now operates along the Gulf of Mexico, the Caribbean Sea, and the Pacific Coast of Latin America.

1999	BMA is founded in Barranquilla, Colombia.
2023	BMA is acquired by Schaefer Group.
2025	Schaefer BMA moves headquarters to Panama and invests in South Texas and Mexico, while adding operations in Guatemala and El Salvador.

Vessel Agency

Schaefer BMA is an international vessel agency focused on Latin America, offering a wide range of maritime related services in North America, Central America, South America, and the Caribbean. For several decades, BMA managed shipments in bulk, breakbulk, container, liquid, and project cargo. And in their more than 25 year history, the agency had worked towards developing a reputation for professionalism, reliability, and effectiveness. Today, Schaefer BMA is headquartered in Panama with offices in multiple countries across the region. And as part of Schaefer Group, we form part of a larger shipping organization which spans across the stevedoring, trucking, warehousing, freight forwarding, logistics, and vessel agency sectors of cargo transportation.

In 1960, French artist Yves Klein (1928-1962) registered a paint formula in Paris under the name International Klein Blue (IKB) with the Institut National de la Propriété Industrielle. Throughout most of his career, he had used blue to create incredible works of modern art. This invigorating ultramarine pigment became his mark, and effectively became the art itself. He used many wild variations of blue in his short life, and we have proudly chosen one of them as our company color. In a bow to him, and to international modern art around the globe, we hope to achieve a similar representative affect. To have this color speak for our company, and to symbolize our efforts. Indeed, it is part of our greater work.
